WORK EXPERIENCE

Bone Vault Inc.

SUMMER 2024

Producer's Assistant

- Designed and developed www.bonevaultinc.com using HTML, CSS, JS and Bootstrap, enhancing the companies online presence through drawing in 100+ active visitors per day
- Configured a Starlink satellite to accomodate the film crew during production in remote areas such as Algonquin Park
- Migrated team to Google Workspace and setup an custom email organization program through Google Apps Script

ROBOTICS

- Manufactured and constructed an 150lb robot in six weeks
- Programmed a climbing mechanism, omnidirectional drivetrain and intake mechanism in Java
- Competed and presented in front of crowds of 1000+ people

WEBSITE

- Designed a detailed wireframe
- Programmed interactive frontend elements and responsive layouts using HTML, CSS, and JavaScript
- Configured and deployed the application via Cloudflare for secure, high-performance global delivery
